NORTHWOOD, ND – AGVISE LABORATORIES, Nutrient Laboratory Analyst

AGVISE Laboratories in Northwood, ND is now hiring a lab nutrient analyst. This is a full time salaried position including benefits. AGVISE Laboratories is an employee-owned agricultural testing laboratory and has been leading the industry in the analysis of soil, water, plant tissue, manure, and fertilizer for more than 40 years. Our team of lab technicians and analysts provide quality results and technical support to agricultural producers, crop consultants, and agronomists. This position is located at our Northwood lab.

Primary responsibilities include:

- Operation of laboratory equipment
- Performing analysis on soil, plant, and water samples
- Supervising and training seasonal employees
- Mixing of standards and reagents
- Writing standard operating procedures
- Assisting in the development of new methods
- Helping to complete research projects
- Testing of samples that require a higher technical skill
- Assist in the setup of new laboratory equipment

Applicants should have the following qualifications:

- Minimum of Bachelor's degree in Chemistry, Biology, Soil Science, or related field
- Ability to work in a professional manner
- Provide a high amount of scientific integrity
- Work well in a team setting with other lab analysts and technicians
- Good writing and communication skills
- Basic computer skills
- Experience working with laboratory equipment would be highly beneficial
- Capable of managing time well and be task orientated
- Ability to work some extended hours during the busy season

Please send applications and resumes to
